GR PRO are backed by over 30 years experience in glassfibre reinforced plastics. We have achieved a strong reputation, within the construction and allied industries, for our commitment to supplying durable, effective products with an exceptional level of quality and value.

By utilising the best materials, composites and techniques, allied with our attention to detail we are able to offer you products that meet our exacting standards and yours.

Our understanding of the versatility of composites, coupled with our commitment to research and development, enables us to work in a wide range of disciplines, consisting ; industrial, architectural, marine, automotive and leisure industries.

GRPRO ARE BACKED BY OVER 30 YEARS EXPERIENCE IN GLASSFIBRE REINFORCED PLASTICS. WE HAVE ACHIEVED A STRONG REPUTATION, WITHIN THE CONSTRUCTION AND ALLIED INDUSTRIES, FOR OUR COMMITMENT TO SUPPLYING DURABLE, EFFECTIVE PRODUCTS WITH AN EXCEPTIONAL LEVEL OF QUALITY AND VALUE.

BY UTILISING THE BEST MATERIALS, COMPOSITES AND TECHNIQUES, ALLIED WITH OUR ATTENTION TO DETAIL WE ARE ABLE TO OFFER YOU PRODUCTS THAT MEET OUR EXACTING STANDARDS AND YOURS.

OUR UNDERSTANDING OF THE VERSATILITY OF GRP, COUPLED WITH OUR COMMITMENT TO RESEARCH AND DEVELOPMENT, ENABLES US TO WORK IN A WIDE RANGE OF DISCIPLINES, CONSISTING : INDUSTRIAL, ARCHITECTURAL, MARINE, AUTOMOTIVE AND LEISURE INDUSTRIES.

GR PRO manufacture kiosks and cabinets, freestanding or wall mounted, for the secure housing of mechanical and electrical equipment.

These units can be fitted over machinery or positioned with equipment arranged on an internal backboard.

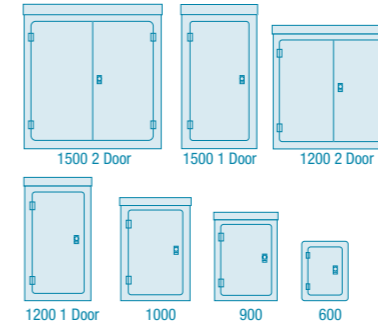

Spiggots, gland plates and cat flaps can be integrally moulded to allow pipework or cabling to be routed. Venting allows a through flow of air. Inspection windows can be positioned for ease of data reading.

Being re-locatable allows machinery to be moved, serviced or updated with ease.

We offer a standard range of kiosks and we also provide a bespoke service, which ensures that we can produce any size and specification kiosk you require. Guaranteeing a perfect fit and aesthetic.

Kiosk sizes (Standard Range)

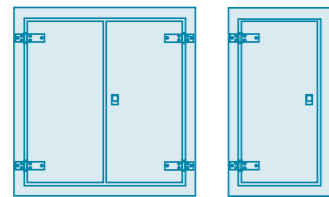

| MODEL | HEIGHT | WIDTH | DEPTH |
|---------|--------|-------|-------|
| 1500 2d | 1500 | 1600 | 800 |
| 1500 1d | 1500 | 800 | 800 |
| 1200 2d | 1200 | 1300 | 700 |
| 1200 1d | 1200 | 800 | 600 |
| 1000 | 1000 | 800 | 500 |
| 900 | 910 | 630 | 400 |
| 600 | 600 | 500 | 360 |

All Our Kiosks, Modular Buildings, Standpipe Housings, Tanks and Control Covers can be coloured to any colour in the BS5252 Colour Range

GR PRO MANUFACTURE KIOSKS AND CABINETS, FREESTANDING OR WALL MOUNTED, FOR THE SECURE HOUSING OF MECHANICAL AND ELECTRICAL EQUIPMENT. THESE UNITS CAN BE FITTED OVER MACHINERY OR POSITIONED WITH EQUIPMENT ARRANGED ON AN INTERNAL BACKBOARD. SPIGGOTS, GLAND PLATES AND CAT FLAPS CAN BE INTEGRALLY MOULDED TO ALLOW PIPEWORK OR CABLING TO BE ROUTED. VENTING ALLOWS A THROUGH FLOW OF AIR. INSPECTION WINDOWS CAN BE POSITIONED FOR EASE OF DATA READING. BEING RE-LOCATABLE ALLOWS MACHINERY TO BE MOVED, SERVICED OR UPDATED WITH EASE. WE OFFER A STANDARD RANGE OF KIOSKS AND ALSO PROVIDE A BESPOKE SERVICE, WHICH ENSURES THAT WE CAN PRODUCE ANY SIZE AND SPECIFICATION KIOSK YOU REQUIRE. GUARANTEEING A PERFECT FIT AND AESTHETIC.

GR PRO manufacture a compact, free standing standpipe housing that insulates and protects stand pipe fittings above ground.

GR PRO PRODUCE MODULAR BUILDINGS FOR THE SECURE HOUSING OF MECHANICAL AND ELECTRICAL EQUIPMENT. OUR STANDARD BUILDING PANELS ARE MANUFACTURED WITH CLASS II FIRE RETARDANT GELCOAT AND RESIN, WITH A SMOOTH, MAINTENANCE FREE EXTERNAL FINISH COLOURED FROM THE BS5252 COLOUR RANGE OF PIGMENTS. ALL BUILDINGS ARE ASSEMBLED USING STAINLESS STEEL FIXTURES AND FITTINGS. WE MANUFACTURE CONFORMING TO PUBLIC UTILITY PRODUCT SPECIFICATION GUIDELINES. OUR SECTIONAL DESIGN ALLOWS US TO PRODUCE A BUILDING OF ANY SIZE UP TO 5 METRES HIGH. THIS COUPLED WITH A VAST ARRAY OF DESIGN OPTIONS INCLUDING; ELECTRICAL SERVICES, THERMAL AND ACOUSTIC INSULATION, FORCED VENTILATION AND DOORWAY TRANSOMS ENABLES US TO SUPPLY YOU WITH A BUILDING TAILORED EXACTLY TO YOUR REQUIREMENTS. BUILDINGS CAN BE DELIVERED SECTIONALLY OR IN ONE PIECE, DEPENDING ON ACCESS TO YOUR SITE AND ARE EASY TO INSTALL, MAINTAIN AND RE-LOCATE. AS WELL AS OUR STANDARD RANGE OF MODULAR BUILDINGS WE OFFER A BESPOKE SERVICE. ALLIED WITH OUR KNOWLEDGE OF MATERIALS AND THEIR STRUCTURAL CAPABILITIES WE CAN DESIGN AND MANUFACTURE A DIVERSE RANGE OF PRODUCTS TO SUIT YOUR REQUIREMENTS. WE OFFER A WIDE RANGE OF SIMULATED BRICK AND WOOD FINISHES SUITABLE FOR LOCATION IN SENSITIVE URBAN AND RURAL ENVIRONMENTS. OUR DESIGN TEAM ARE AVAILABLE TO MAKE YOUR IDEAS COME TO LIFE.

GR PRO produce modular buildings for the secure housing of mechanical and electrical equipment.

Our standard building panels are manufactured with Class II fire retardant gelcoat and resin. With a smooth, maintenance free external finish coloured from the BS5252 colour range of pigments. All buildings are assembled using stainless steel fixtures and fittings.

We manufacture conforming to public utility product specification guidelines. Our sectional design allows us to produce a building of any size up to 5 metres high. This coupled with a vast array of design options including; electrical services, thermal and acoustic insulation, forced ventilation and doorway transoms enables us to supply you with a building tailored exactly to your requirements.

Buildings can be delivered sectionally or in one piece, depending on access to your site and are easy to install, maintain and re-locate.

As well as our standard range of modular buildings we offer a bespoke service.

Allied with our knowledge of materials and their structural capabilities we can design and manufacture a diverse range of products to suit your requirements.

We offer a wide range of simulated brick and wood finishes suitable for location in sensitive urban and rural environments. Our design team are available to make your ideas come to life.

GR PRO TANKS

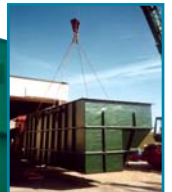

GR PRO design and manufacture tanks and bunds from 100 to 100,000 litres capacity. Suitable for a variety of end uses.

Constructed in a sectional or one piece design. Tanks can be manufactured for installation above or below ground. All tanks come with an internal gelcoat finish resistant to chemicals and bacteriological growth.

Conforming to International directives on water quality, chemical and food storage.

SPECIFICATIONS INCLUDE:

- Screened overflow / telltale.
- Screened vents.
- Raised ball valve chambers. Type A/B as required.
- Sealed manways / inspection hatches.
- Walk on, grit finish, covers.
- Encapsulated foam insulation.
- Marine grade stainless steel fixings.
- Level indicators.

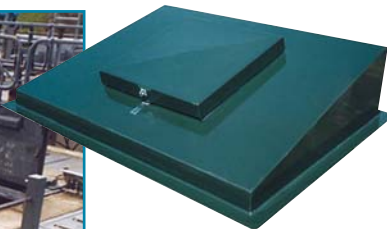

GR PRO CONTROL COVERS

GR PRO design, manufacture and install a wide range of Storage Tank Control Covers. From Manway Access Covers, thermal and acoustic Insulated Covers to Odour Control Covers for the containment and treatment of gasses from sewage treatment plants.

Manufactured utilising the best composite materials and techniques and capable of withstanding a 5kN loading they provide a non corrosive, safe secure platform.

Walk on platforms come with a grit finish and can be supplied complete with fitted safety handrailing.

Lockable Inspection Hatches are manufactured to any size and can be situated to offer complete access to machinery for ease of inspection or servicing.
